Carol Swain : Be the People: A Call to Reclaim America's Faith and Promise before purchasing it in order to gauge whether or not it would be worth my time, and all praised Be the People: A Call to Reclaim America's Faith and Promise:

0 of 0 people found the following review helpful. Excellent By Rebecca Staunton Dr. Carol Swain, PhD wrote a very thought provoking book and easy to read and understand! I appreciate her assessment what has and is happening to this nation. An excellent book to share with my teen grandsons, actually a reading assignment for discussions. We

have to bring back teaching our children/grandchildren to THINK for themselves and be knowledgeable about the history of this country and bring GOD back into their lives. Thank you, Dr. Swain 0 of 0 people found the following review helpful. Truth: Impressive, Well Written, Easy to Read By S. Fisher Carol Swain tells it like it is. Her logic is impeccable. She is an amazing woman whose credentials and personal background give her credibility that most people simply can't equal. This book should be on every high school and college reading list. 0 of 0 people found the following review helpful. Definitely Worth the Read By Gael Mounger Dr. Swain's is a unique voice in America. Read it with an open mind and you'll be glad you did.

Be the People is a courageous analysis of today's most pressing issues, exposing the deceptions by the cultural elite and urging We the People to restore America's faith and values. Sean Hannity There are many good books but only a few really important ones. Dr. Carol Swain's Be the People is one of the latter. Brave, informed, candid, and thoughtful, she brings her fine academic mind to bear on the most pressing needs facing our country. Tony Perkins A courageous, challenging, and controversial call to Americans of all colors to return to their Creator and to come to their Judeo-Christian senses. Dr. Peter A. Lillback In Be the People Professor Carol Swain thoughtfully examines the biblical roots and religious significance of today's most pressing issues. Professor Swain shows how to make your voice heard and how to reclaim America's faith and values. Lou Dobbs An insightful analysis of the forces of deception rapidly reshaping America's morals, social policies, and culture, with a call to specific action, written by a thoughtful and courageous Christian social scientist on the front lines of today's issues. Cultural elites in the media, academia, and politics are daily deceiving millions of Americans into passively supporting policies that are detrimental to the nation and their own best interest. Although some Americans can see through the smokescreen, they feel powerless to redirect the forces inside and outside government that radically threaten cherished values and principles. Drawing on her training in political science and law, Dr. Swain thoughtfully examines the religious significance of the founding of our nation and the deceptions that have infiltrated our daily lives and now threaten traditional families, unborn children, and members of various racial and ethnic groups as well as national sovereignty itself--and provides action points for the people of this country to make the political system more responsive. The book is divided into two sections: Forsaking what we once knew Re-embracing truth and justice in policy choices It also covers key topics such as: America's shift to moral relativism America's religious roots Abortion's fragile facade Historical and biblical views on families and children Erosion of rule of law, national security, and immigration Racial and ethnic challenges Reclaiming the future

About the Author Carol M. Swain, PhD, is widely recognized as an authority on political science, law, race, and immigration. She has provided expert commentary about some of today's most complex issues, appearing on top national radio and television programs. Currently professor of both political science and law at Vanderbilt University, she is also a member of the James Madison Society at Princeton University, where she was a tenured professor.
