A MUST READ FOR ANYONE INTERESTED IN THAT TIME PERIOD!!!By LorraineJust received this book and so far (I'm 2 chapters in) this is a fabulous book. A first hand account of what life was like during that time!! Truly remarkable. I have read many books about the concentration camps, survivors, Hitler and that overall time and some can be very dry, boring text but honestly this is not one of those books! This holds the readers attention and is really a must read for anyone with any interest in that time period!0 of 0 people found the following review helpful.
