**Markus Aurelius : Bleeding for Allah: Why Islam will Conquer the Free World. What Americans Need to Know.** before purchasing it in order to gage whether or not it would be worth my time, and all praised Bleeding for Allah: Why Islam will Conquer the Free World. What Americans Need to Know.:

3 of 3 people found the following review helpful. This should be curriculum in every school!By Jordan

RodriguezSurprisingly I learned a lotta history and facts I didn't know about Islam with this little book. I was just expecting a bias criticism, but the guy is pretty objective. He clearly says that no religion is free from guilt and in many occasions he even praises the cultural contributions of Islam and even praised the figure of Saladim for instance. He does challenge however the writings on the Quran specially on the treatment of unbelievers and how history itself had proven the real context of these verses even though Muslims today keep saying we don't understand the context.4 of 4 people found the following review helpful. Great book to read about today's happeningsBy CustomerVery informative and to the point. Many things stated that are NOT mentioned by those in our government due to many reasons. Aurelius offers insight to the religion that is so much in the news today and gives many sources that he shows that back up his statements. I wholly reccommend this book and hope that it creates discussion with those of the Islam religion and others that make the decisions today.23 of 30 people found the following review helpful. War on Terror, or War on Islam?By Ed HeskettWhen we recognized the "War on Terrorism" and sent troops to seek out those that endangered our nation, many "moderate" Muslims claimed we were declaring war on Islam. Our leaders publicly denied this. Once you read this book, you will understand that the "moderate" Muslims were just voicing the natural opinion of anyone familiar with the tenants and requirements of the Islamic Faith. This book shows that "moderate" Muslims are simply serving Allah in a non-militant capacity. They can not be proper Muslims and actually object to or try to stop the militants. Very disturbing, but a must read for anyone who wants to understand what it will take to win the war on Terror. The Author thinks we will lose.

Over 4 years in the making, "Bleeding for Allah" scrutinizes Islam from the very birth of the religion. The Koran, the Holy Book of more than one billion people worldwide, is systematically analyzed to reflect the true nature of its message. "Bleeding for Allah" goes the full distance in detailing the uncomfortable and painful truth of that message. Although touted as a peaceful religion and Islamic terrorists dismissed as misguided fanatics, it is clear that the very words of Allah, as voiced through the Archangel Gabriel to the Prophet Muhammad, are anything but peaceful. Markus Aurelius, in concise and clear fashion, gives countless examples of Koranic verse that readily demonstrates its militancy and violence. The author speaks to cultural bias and is quite sensitive to its influence on interpretation. But the author finds it extremely difficult to dismiss countless holy verse such as: "Believers, take neither the Jews nor the Christians for your friends." (Koran, 5:51) or: "Prophet, make war on the unbelievers and the hypocrites, and deal sternly with them." (Koran, 66:9). To further try to eliminate cultural bias, the book includes a comparative analysis of specific words between the New Testament and the Koran. For example, the words "punishment" and "torture" appear 600% more in the Koran while the word "love" appears 500% less. The author carefully examines the Prophet Muhammad's life and outlines the gruesome details of his explosive success in the 7th century. The shrewd Prophet creatively found divine support from Allah for his banditry and mass murder. Sadly, more than one billion people believe those words today. Americans are woefully in the dark regarding the Koran. But few Americans have taken the time to read the Koran itself. Markus Aurelius challenges the American public to do just that. "Bleeding for Allah" is the perfect primer.

About the AuthorNamed by his father for the Roman Emperor and stoic philosopher, Markus Aurelius has been a life-long student of history, science and religion. His published work covers a broad range from scientific papers on alternate energy research done under grants from the Los Alamos National Laboratory to diverse poetry which ranges from dark and edgy to spiritually enlightened. Markus' education includes a Bachelors Degree in Science with minors in sociology and comparative religion and a Masters Degree in Science in Earth History. "Bleeding for Allah" represents a 4 year project that incorporates much of Markus' education and experience. Markus has been a collector of ancient artifacts, religious antiquities and antiquarian books for more than 40 years and utilizes several centuries-old texts in this particular work.
