**J. Deotis Roberts : Bonhoeffer and King: Speaking Truth to Power** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Bonhoeffer and King: Speaking Truth to Power:

6 of 7 people found the following review helpful. speaking truth to power By open mind I used this book in a first-year seminar entitled 'speaking truth to power' this fall. It is an excellent introduction to the lives and philosophy of Bonhoeffer and King. Roberts has done an excellent job of giving the development of the ideas these social prophets held in a way that allows students to see how such ideas are shaped. Although it is helpful to have a good working

understanding of theology and politics, this book is still very useful.

A study of two of the most significant prophetic leaders in the twentieth century, J. Deotis Roberts's Bonhoeffer and King is an instructive work in theological ethics. This book considers and compares the theological reflections that guided Bonhoeffer's courageous stand against Nazism and King's quest for civil rights in America.

About the Author J. Deotis Roberts is a highly esteemed theologian who was one of the founders of the Black Theology movement.
