**John Hoskin : Buddha in the Landscape: A Sacred Expression of Thailand** before purchasing it in order to gage whether or not it would be worth my time, and all praised Buddha in the Landscape: A Sacred Expression of Thailand:

2 of 2 people found the following review helpful. A beautiful book.....By PatOne of my friends who used to own a book store supplied me with a copy of this beautiful "coffee table book" when it first came out in 1998. The photography is well done and gives a unique perspective of the enormous Buddha statues that one happens to find at various locations around Thailand. Before moving to Thailand I stored some items at my mothers house and this is one of the very few books that I kept. Simply a beautiful book to have if you can find a copy.1 of 1 people found the following review helpful. ExcellentBy A CustomerBeing a photographer myself, I can only say that this is an excellent book with great photography and good background information on Thailand, Buddha Statues and Buddhism in general. I pull out this book over and over again just to look at it's photographs. They are almost meditation!8 of 15 people found the following review helpful. Disappointing t ext and photography.By A CustomerThe photography was at best "mediocre" and presented nothing that could not be seen in other books on Thailand. The text lacked both depth and understanding of the subject and was stilted.
