**Maureen E. Mansell : By the Power of Their Dreams** before purchasing it in order to gage whether or not it would be worth my time, and all praised By the Power of Their Dreams:

0 of 0 people found the following review helpful. Hate to share this secret, because it's difficult to find this book.....By ChacodogI'm adding this review after reading the only one currently present. The other reviewer wrote that, "the content was better suited to artists...." This is a priceless little volume that has some very nice traditional Indian verse presented with paintings of historic war shields. This is wholly artistic, but not meant for artists or directed solely at artists. This is a soulful book that has been out of print for several years. I first had a copy 20 years ago and lost it in Hurricane Katrina. Recently I bought a half-dozen used copies and kept one and gave the rest as gifts. This is a priceless little treasure.0 of 0 people found the following review helpful. By the Power of their DreamsBy shawn madiganThe book was in new condition when it came, which was even better than advertised. The content was better suited for artists than myself but that is no judgment of the product.

A powerful and thought-provoking glimpse into an enduring indigenous tradition, this enlightening volume explores the riveting history and sacred mysticism behind the shields of the Plains Indians. Mansell's carefully rendered watercolor replicas of over 30 beautifully decorated shields are accompanied by the writings, songs, prayers, and

chants of the Blackfoot, Kiowa, Arapaho, Sioux, and other Plains tribes.
