this book was a part of the curriculumBy Kailey ComptonThis book is very insightful to the censorship that comes from the government through the media. Really scary to realize how much us Americans don't really know. I am taking a Social Problems class at my college and I am very glad this book was a part of the curriculum. A must read - to get your eyes open so you can be aware of what is actually going on around you!0 of 0 people found the following review helpful. An annual summary of the most important underreported stories.By Conflicted ConsumerIf you read one nonfiction book a year, make it Project Censored. This book is like crib notes on the previous year in underreported news.0 of 0 people found the following review helpful. Censored 2016By Violet BunnyAnother great book of censored news stories. Keep publishing 'em, guys, I'll keep reading! Thanx for your efforts, much appreciated.

The annual yearbook from Project Censored features the year's most underreported news stories, striving to unmask censorship, self-censorship, and propaganda in corporate-controlled media outlets. Censored 2016 features the top-25 most underreported stories, as voted by scholars, journalists, and activists across the country and around the world, as well as chapters exploring timely issues from the previous year with more in-depth analysis.

"Project Censored's list of the top stories that get very little mainstream media traction should in fact drive the reporting agendas of every major news outlet. These 25 stories are clearly the most consequential of the year, and what is scary in looking at the list is how obvious it is that silencing reports of these themes protects corrupt governments and corporate gatekeepers. Project Censored is a lifeline to the world's most urgent and significant stories." --Naomi WolfAbout the AuthorPROJECT CENSORED, founded in 1976 by Carl Jensen at Sonoma State University, has as its principal objective the advocacy for and protection of First Amendment rights, including freedom of information. In 2008, Project Censored received the PEN/Oakland Literary Censorship Award. Most recently, Project Censored received the 2014 Pillar Award in Journalism and New Media, given annually to persons of conscience, conviction, and achievement who stand up for what's right and what's true in the face of corporate and political intimidation.
