**Tirupattur Ramaseshayyer Venkatachala Murti : Central Philosophy of Buddhism; A Study of the Madhyamika System** before purchasing it in order to gage whether or not it would be worth my time, and all praised Central Philosophy of Buddhism; A Study of the Madhyamika System:

Originally published in 1955. The Madhyamika philosophy is, in the authors view, the philosophy which created a revolution in Buddhism and through that in the whole range of Indian philosophy. This volume is a study of the Madhyamika philosophy in all its important aspects and is divided into three parts: Historical: this traces the origin and development of the Madhyamika philosophy. The second part concentrates on a full and critical exposition of the Madhyamika philosophy, the structure of its dialectic, its conception of the Absolute and its ethics and religion. The last part of the book compares the Madhyamika with some of the well-known dialectical systems of the West (Kant, Hegel and Bradley) and undertakes a short study of the different absolutisms (Madhyamika, Vijnanavada and the Vedanta).
