You learn an awful lot without realizing it as you keep turning the pages. This is full of wit, facts and wisdom, all written with a dash of Fatah humour. Don't waste any more time reading me when you could be reading this excellent book by an incredible Canadian author!1 of 1 people found the following review helpful. Comprehensive awesomenessBy obzIt is a great read for anyone interested in finding out what the hell is up with Muslims of the world.2 of 2 people found the following review helpful. Caliphate (Islamic

State)/Sharia Law not required in Islam, critical reasoning of Islam is not slander. By Books Customer Since 1996 Chasing a Mirage: Lots of evidence as to why a Caliphate (Islamic State) is not called for in Islamic ideology. Goes over in great detail the early "golden" age and why it was a terrible time for the people closest to Mohammed (they were basically all murdered by other Muslims over who and how to run the Caliphate) and not a good model to govern Muslims. Makes a very good argument using critical reasoning that a political Islam is not called out in the Koran. His call for reform or a different interpretation of Islam to bring it into the 21st century under equal rights for all and separation of Mosque and state is needed. Unfortunately this was written in 2008 and there has been zero successful reform at any local, national, international level. Saudi Arabia type Sharia Law and slandering the prophet accusations are used successfully everyday in non-Muslim countries. Germany just had to lower the allowable already married age for refugees coming in to as low as 12 to accommodate Islam. So called successful moderate Muslim countries like Indonesia and Turkey are increasingly intolerant. Not to mention this was written before ISIS (Islamic State) was created. This is the first book I've seen that used critical reasoning to review Islam and now that I've looked around there are no colleges that do any of that. Name a college Islamic Studies center that does critical reasoning? They all seem to be sponsored by Saudi Arabia. It's a bleak assessment. I don't even see any non-Muslim countries much less Muslim countries that have a identifiable group of Mosques that allow criticism of Mohammed, call for equal rights for all under the law, and believe in separation of Mosque and state. What would that group of Mosques be called? As a side note the author is a progressive Canadian Muslim. So he groups all bad groups even non-Muslim under right wing/fundamentalist and America is not talked about much under a good light. Leftwing groups are good except he does call them out severely for supporting Islamist ideology. His explanation is the left has been hoodwinked into believing Islamists are fighting American imperialism just like they are. Book is highly recommended.

In Chasing a Mirage, Tarek Fatah Writes: Islamists argue that the period following the passing away of Muhammad was Islam's golden era and that we Muslims need to re-create that caliphate to emulate that political system in today's world. I wish to demonstrate that when Muslims buried the Prophet, they also buried with him many of the universal values of Islam that he had preached. The history of Islam can be described essentially as the history of an unending power struggle, where men have killed each other to claim the mantle of Muhammad. This strife is a painful story that started within hours of the Prophet closing his eyes forever, and needs to be told. I firmly believe the message of the Quran is strong enough to withstand the facts of history. It is my conviction that Muslims are mature and secure in their identities to face the truth. This is that story. Advance Praise for Chasing a Mirage "Tarek Fatah has written a provocative and challenging book which is a must read for anyone who cares about these issues." Janice Gross Stein "Chasing a Mirage is an extremely valuable contributing to the fight by progressive Muslims against Islamist fascism. This book should be required reading for the Left in the West who have mistakenly started believing that Islamists represent some sort of anti-imperialism." Farooq Tariq "Fatah argues passionately for universalism instead of exclusivism, integration instead of ghettoism, and makes a powerful appeal for the silent majority of Muslims to speak out before it is too late. This work of courage and daring needs to be read widely." Pervez Hoodbhoy "This fascinating work by brave and brilliant Tarek Fatah is simultaneously thought-provoking, instructive and enlightening for laymen and scholars, Muslims and non-Muslim...an invaluable and rare addition to the corpus of Islamic literature in the post-9/11 world, a bold step towards Islamic Reformation and Enlightenment." Taj Hashmi "Tarek Fatah's is a voice that needs to be heard. Canada needs a healthy, reasoned debate about the issues he is raising, and indeed so does the world." "I think this book is a positive contribution to the discussion about contemporary Islam and certainly a valuable addition to the voices that are critically looking at Islam's right-wing. . . . I don't think there is any other public intellectual in the North American arena -- Muslim or other -- who could have written this book." (HuffingtonPost.com, April 15th, 2008) "...a book worthy of attention...both for its contents and for the courage of its author." From the Inside Flap  
In *Chasing a Mirage*, Tarek Fatah opens a window on the Muslim world that reveals a blighted landscape. Fatah, a Canadian Muslim born in Pakistan, argues that Islam has been hijacked by radicals who falsely invoke the Quran and Prophet Muhammad for their own political purpose that offends the spirit of Islam. At the heart of the matter is the duplicity of imams who decry the West for the ills that affect Muslims. Such invective deflects the failure of most Muslim countries to offer a modicum of freedom, human rights and equality--not ideas that are the purview of western countries, but indeed are inherent in the spirit of Islam. Where did things take such a wrong turn? In the author's assessment, the Quran did not prescribe that Islam should take on a political form--an entity that is the Islamic State. Yet in the aftermath of the Prophet's death, two streams of Islam emerged. One was political and imperial, seeking power and domination, reverberating through the ages and resulting in war bloodshed among Muslim brothers. The other Islam was spiritual, which unleashed the human spirit, triggering an age of enlightenment that once was the hallmark of science, literature, music, and mathematics. The author suggests that the crashing end to Islam's era of intellectual supremacy was a direct result of political Islam inflicting a crushing defeat on the spirit of Islam. In a global movement, Islamists have worked to establish the Islamic State, while Muslims continue to be sacrificed for a cause that is rooted in deceit and delusion. Can a millennia of aggression be brought to a halt? *Chasing a Mirage* is unequivocal in its answer and in its remedy to end political violence that is inimical to Islam and its state of grace and peace. The book urges Muslims to give up on the Islamic State and strive for the state of Islam.
