You're about to be taken through the experience of a lifetime! from parapets of stone, to Rococo paintings of chubby naked people, this book will change your outlook on reality.God I love it!Oh, Yeah, and it was a solid copy, with only a few markings in it and it arrived sooner than expected. So that was nice too.0 of 0 people found the following review helpful. More

Than Worth the ValueBy LeahThe reading and analysis is not difficult to understand and the information is written in a way that will make remembering it not an issue. Definitely got more than my money's worth with this purchase.0 of 0 people found the following review helpful. Great Textbook - Does not work well on Kindle for PCBy AureusI like this textbook very much, but am incredibly disappointed in the way it works on Kindle for PC, and that there is no Cloud Reader alternative. Basically, you can read along, make notes and highlights, etc., but as soon as you want to change the view, or use a browser for a quick look elsewhere, you receive a message: "Kindle needs to close, sorry for your trouble." If you can put up with this it's a good text, but I'd think twice as they dropped the price of the printed version \$100 after I purchased the e-book. :(

Large course taught nationwide, but especially large in Florida, Texas, and California. Usually a popular elective but required of all incoming students at some schools. Annual enrollments in the course and current TL market share.
