I can't recommend it as an addition to a personal library and think it's mainly for college students learning rather than for an entertaining read. It's pretty dry and I sold it very quickly.0 of 0 people found the following review helpful. Wrong book sentBy L SimonsonI was sent a book that did not match my ISBN number plus it was an instructor's edition, which at the top says "prohibited for sale or resale".1 of 1 people found the following review helpful. A perfect conditions book!By josedMy book came in very good conditions. It looks like new! I liked the box my book was sent in because it was very comfortable to save my book from damage.

Large course taught nationwide, but especially large in Florida, Texas, and California. Usually a popular elective but required of all incoming students at some schools. Annual enrollments in the course and current TL market share.
