Given, the literal religious fans that love to give quotes will hate it. If one likes "The Headless Horseman" they will love it. 0 of 0 people found the following review helpful. Unlike some other reproductions of classic texts (1) We have not used OCR(Optical Character Recognition), as this leads to bad quality books with introduced typos. (2) In books where there are images such as portraits, maps, sketches etc We have endeavoured to keep the quality of these images, so they represent accurately the original artefact. Although occasionally there may be certain imperfections with these old texts, we feel they deserve to be made available for future generations to enjoy.

From the AuthorANDREW LANG (1844-1912), the son of the sheriff-clerk of rural Selkirkshire, was educated at Edinburgh Academy, the Universities of St. Andrews and Glasgow, and Balliol College, Oxford. A contemporary and friend of Robert Louis Stevenson, he produced a stunning variety and number of volumes, including books of poetry, novels, children's books, histories, and biographies, as well as criticism, essays, scholarly works of anthropology, and translations of classical literature. From the Back CoverFirst published in 1887, this early work of comparative mythology remains a vital resource to students and devotees of ethnography, history, and world legends. Lang's stunningly comprehensive overview of pre-scientific thinking provides an important perspective on the worldviews that molded and continue to influence modern thought. In Volume Two, Lang explores the concept the "the divine" as it has manifested itself around the world, examines the importance of ritual, and delves particularly into the mythologies of ancient Egypt, Greece, Mexico, and India to demonstrate how imaginative ideas about gods have shaped humanity.
