From Peter Lang GmbH, Internationaler Verlag der Wissenschaften : Nordic Ideology between Religion and Scholarship (Zivilisationen und Geschichte / Civilizations and History / Civilisations et Histoire) before purchasing it in order to gage whether or not it would be worth my time, and all praised Nordic Ideology between Religion and Scholarship (Zivilisationen und Geschichte / Civilizations and History / Civilisations et Histoire):

The articles of this volume treat the expansion of the Nordic ideology in the first half of the twentieth century. They concentrate on the amalgamation of scientific, religious and political features, which transformed the idea of the North into a mainstay of extreme nationalism. Lacking positive norms and values, the Nordic idea depended on the opposition against everything deemed un-Nordic. Vlkisch Nordicism shared with conventional forms of nationalism the enmity with Judaism and Bolshevism and to a lesser extent with Anglo-Americanism and Catholicism. Beyond that, it constituted a mythological counter narrative that combined the idea of spiritual kinship with biological lineage, on Pagan as well as on Christian grounds.

About the Author Horst Junginger, PD and PhD in history of religions, is currently professor of the study of religion at the Ludwig-Maximilians-Universitt Munich. Andreas kerlund, PhD in history, is research fellow and research leader at the Department of History at Uppsala University.
