**Freya Aswynn : Northern Mysteries and Magick: Runes Feminine Powers** before purchasing it in order to gage whether or not it would be worth my time, and all praised Northern Mysteries and Magick: Runes Feminine Powers:

1 of 1 people found the following review helpful. Because the Runes are personal and open to interpretation that ...By P. LarsonBecause the Runes are personal and open to interpretation that way, I found one interpretation in the magick

area that did not exactly work for me. But that is the way of the Runes and my own variation in interpretation is still in the same family as hers. She's a very learned person and I felt honors the Runes in a little more than other books I've read. You can feel that she's worked with them a long time both in divination and magick. 1 of 1 people found the following review helpful. Can't go wrong with Freya Aswynn as your teacher guide. By C. Chitta Freya Aswynn is the most advanced, knowledgeable and skilled expert practitioner at the top of her field in the Northern Tradition and Runes way of life. This is your best option for authenticity in my opinion. I did my research. Also she has an enjoyable style of writing, where you feel engaged in conversation or in person. 1 of 1 people found the following review helpful. Hail By Sirwa I love this author and her particular experiential take on the runes, not just going by what every book (which contradicts one another normally) says. She gives practical examples of reading, and very in depth detail as to the runes and the Gods and Goddesses on the North, and does very well at tying in information pertaining to other Gods who may or may not be expressions of another. She fascinates me, and I have her accompanying cd, and her voice is intriguing.

Bring the power of the ancient runes into your life for divination and magic with Northern Mysteries Magick (revised edition of Leaves of Yggdrasil) by Freya Aswynn. The runes are more than an ancient alphabet. They comprise a powerful system of divination and a path to the subconscious forces operating in your life. Northern Mysteries Magick is the only book of Nordic magick written by a woman, and it is the first to offer an extensive presentation of rune concepts, mythology, and magical applications inspired by Dutch/Friesian traditional lore. Also unique in this book is the inclusion of the feminine Mysteries of the North. You'll learn how they are represented in the runes. You will see how each of the major deities of Northern Europe still lives in the collective consciousness of people of Northern European descent. - A complete analysis of the Elder Futhark Runes and their meanings - How to use the runes for divination including several rune spreads - Using the runes in magick - Rune charms and power sigils - Shamanic drumming and chanting - Profiles of the eight major Gods - The Northern Feminine mysteries featuring four major goddesses The first edition of this book was considered a classic. Now, revised and expanded, Northern Mysteries Magick is one of the most amazing and important books ever on the Runes and the magick of Northern Europe.

.com In the global scheme of mystery traditions, cultures from most countries have their own current mythos, yet northern shamanism conspicuously lacks representation in contemporary spiritual practice. Northern Mysteries and Magick fills this gap by unearthing the ancient Nordic pantheon, examining the meanings and interrelations of the earliest 24 runes, known as the "Elder Futhark," and exploring the often overlooked feminine aspects of Northern mythology. [A separately sold] CD [Songs of Yggdrasil: Shamanic Chants from the Northern Mysteries] harkens back to tribal storytellers and replaces the vital aural component missing from our paper-based society. Freya Aswynn's accent lends a crisp consonance to her powerful performances as she invokes the old gods of an icy clime. Waking this pantheon from its long slumber, Aswynn extrapolates a natural course of evolution for the Northern tradition and synthesizes it into a magical tradition suitable for the contemporary practitioner. --Brian Patterson From the Publisher Power exists in many forms. There is the gentle power of a small brook that gently wears a path into the soil. There is also the incredibly strong power of a massive waterfall. Northern Mysteries Magick (revised and expanded edition of Leaves of Yggdrasil) by Freya Aswynn is a book that is almost shocking in the strength of the power it exhibits. If you have any interest in learning about the magick and spirituality of the people of Northern Europe, this book is a must. In it you will learn about the runes and how to do runic magick. You'll do divinations and create rune charms. You'll discover the secrets of shamanic techniques such as shape shifting, while learning the secrets of drumming and chanting according to the ancient ways. About the Author Born in Holland, Freya Aswynn was aware of her natural psychic abilities as early as four years old, often able to perceive what would occur before it did. At the age of 19, with no real formal education except for the abilities to read and to write, Aswynn decided to develop her gift even further. She initially joined a spiritualist group, and later went on to study such subjects as Rosicrucianism, Astrology, Cabala, Thelema, and was eventually initiated into Wicca in 1980. After awhile, Aswynn began to question why the only gods mentioned were Graeco-Roman or Celtic in descent because they had no relationship to her own Dutch heritage. She then came to discover that there in fact were Nordic gods, and it was after a difficult personal experience that she became devoted to the Norse god, Wodan. It was Wodan's help that influenced Aswynn to begin her research on the occult and the Northern traditions. Runes had had an important impact on her life, so she began by studying them and their connection to Northern Europe and also began her first book, Leaves of Yggdrasil. She is also the author of Principles of the Runes, Northern Mysteries Magick: Runes, Gods Feminine Powers, and an audio CD, Songs of Yggdrasil: Shamanic Chants from the Northern Mysteries.
