This book is for citizens who are concerned about our morally degenerating society. The authors point out that God condemns big government and commands His people to be productive. The only way we can control our communities within each sovereign state is to regain the constitutional right of nullification.

From the Back CoverAs the government grows, the anti-Christian secular humanist element that controls society continues to tighten its grip. In their new book, the authors of *The South Was Right!* invite Christians to separate themselves from the corruption and establish moral communities with strong values. Twenty chapters explore the concepts of state nullification and the personal right to be left alone by the federal government. Compelling arguments discuss such key issues as the importance of respecting the property rights of neighbors and the basic principles necessary for establishing limited government. A historical description of America's moral roots and an explanation of the Founding Fathers' true vision for the country guide the Kennedy brothers as they urge Christians and other interested citizens to take a stand and stop the Leviathan federal government before it tarnishes society. James Ronald Kennedy and Walter Donald Kennedy staunchly support individual freedom and exercise their rights as members of numerous like-minded organizations. James serves as the director of risk management for an insurance company, and Walter is a registered respiratory therapist and a certified registered nurse anesthetist. Both brothers are members of the Sons of Confederate Veterans and write books inspired by their Southern heritage. James resides in Mandeville, Louisiana, and Walter lives in Downsville, Louisiana.
