Timothy P. Weber : On the Road to Armageddon: How Evangelicals Became Israel's Best Friend before purchasing it in order to gage whether or not it would be worth my time, and all praised On the Road to Armageddon: How Evangelicals Became Israel's Best Friend:

0 of 0 people found the following review helpful. A Dispensational Expert!By Cheryl MasonI cannot believe this book has been around since 2004 and I've only just discovered it. It would have to be one of the most comprehensive books

I've read on the topic of Dispensationalism. Now I can honestly say I understand Dispensationalism, yippee! This author is truly an expert on the topic. Every paragraph, every chapter, is filled with detail. How can one man know so much? I kept asking myself. I made notes, jotted down references, highlighting verses, I couldn't put this book down, I had to finish it. In the end I pretty much highlighted the entire book! It's a must read for all those interested in current world events. It's never easy to understand the support Evangelicals have for Israel, but this book helps. They are in fact the glue that binds America and Israel together. What kind of a world would we be living in if this movement didn't eventuate? I think a much more peaceful one, not the author's opinion, but mine. They have added fuel to the Middle East fire and have turned Israel and the Jews into a god on earth, in doing so they have replaced the preaching of the Gospel with a love and adoration for Israel that is incomprehensible. The lost, the lost, millions of souls perish while this love affair continues... How will we answer God on the day of Judgement? We became distracted from the one and only commission. The Great Commission, "Go into all the world and preach the Gospel." 5 of 5 people found the following review helpful. An Excellent Read and Well Researched By R. Jarvis This is a well-written and nicely researched overview of how Evangelicalism became so tied to the cause of Israel beginning in the 1950s after the founding of the modern Jewish state. The roots of this tie go back to the 1800s and the beginnings of dispensationalist theology and came to full flower beginning in the 1950s during the Cold War. The somewhat odd marriage of American fundamentalist evangelicals and the hawkish elements in Israeli society is mapped out with care to note the paradoxical nature of this marriage of convenience that sometimes requires one side to ignore the end goal of the other side that will require the destruction of the modern Jewish state as a fulfillment of prophecy. It's a fascinating read and a good one for anyone trying to get a handle on the relationship between American evangelicals and Israel. 3 of 3 people found the following review helpful. It is an excellent primer for anyone seeking to understand the phenomenon of ... By Vincent Saloni It is an excellent primer for anyone seeking to understand the phenomenon of 'Pre-Millennial - Dispensationism', an eschatology that dominates the Evangelical church today. While the Pre-Millennial position can be found early in church history, the "dispensational" twist is a reality new phenomenon. This is something I don't believe is widely known.

Why do evangelicals care so much about Israel? How did this special relationship develop? What has it produced? Certain understandings of Bible prophecy have profoundly shaped the way evangelicals and other Americans view Israel and the political policies that have supported the Jewish state. Now in paperback, this major work on an ever timely theme is for anyone interested in American-Israeli relations, history, theology, and politics. "Timothy Weber's important and timely book illuminates the end-times beliefs that shape millions of Americans' view of current events. Well-researched and historically grounded . . . This disturbing work deserves the widest possible readership." --Paul S. Boyer, author, *When Time Shall Be No More*

About the Author Timothy P. Weber (Ph.D., University of Chicago Divinity School) is the author of *Living in the Shadow of the Second Coming: American Premillennialism, 1875-1982*.
