Langley This book was a fantastic work and really helped me to wrestle between than fine line of getting involved with politics vs. doing nothing at all in that arena. I believe this book is gold standard with the subject matter of Gospel Centered people and politics... and I believe this book will stand the test of time and continue to be the gold standard even as more authors weigh in on this nuanced issue. 2 of 2 people found the following review helpful. I enjoyed the book By Chris Davenport As a Christian who is involved in politics this was a good read. I think I was looking for a bit

more instructions, but this book spells out our duties as humans that are involved in society. We have a place, and a duty. We need to practice that responsibility. We are here to provide order and justice to the human race. Through righteous politics and good choices, it can be done. If you are going into politics or want to be involved in politics this is a good bit of information to have in your tool box. 0 of 0 people found the following review helpful. A useful, if not briefBy HughA useful, if not brief, commentary on the role of Christianity in American politics. Some chapters shy away from the issue too much and do not provide the discussion deserved: I'm thinking specifically about the entirely wasted chapter on race relations. Avoiding a constitutional framework when discussing American politics is also a concern but I understand why the authors may have left that out. I just find it difficult to have a meaningful discussion on U.S. politics without reference to the Constitution. Overall, it's a good book that I will recommend to Christians who want an introduction to how they may engage political discussions from a Christian worldview.

Is it possible to be passionate about the gospel and care deeply about politics? Can we engage in politics responsibly, confidently, graciously even Christianly? When it comes to politics, Christians today seem lost and confused. Many Christians desire to relate their faith to politics but simply don't know how. This book exists to equip the reader to apply Christianity to politics with both grace and truth, with both boldness and humility. Politics is not an evil arena to be avoided. Neither is it our only avenue for impacting society. The reality is much more complex and, oddly enough, much more promising.
