history buff needs to read. An important read that shows what life was like in a white family pre-civil war. A powerful story that details the brutality a black child faced. 0 of 0 people found the following review helpful. Enjoyed By Seraphina Just wanted to see what happened to us during slavery. The copy I received was a terrible transcription where many words have random spaces in them By Scott Williams The copy I received was a terrible transcription where many words have random spaces in them, and there is plenty of punctuation errors. Random numbers also appear throughout the text. The book also has no page numbers.

First published in 1859, *Our Nig* is an autobiographical narrative that stands as one of the most important accounts of the life of a black woman in the antebellum North. In the story of Frado, a spirited black girl who is abused and overworked as the indentured servant to a New England family, Harriet E. Wilson tells a heartbreaking story about the resilience of the human spirit. This edition incorporates new research showing that Wilson was not only a pioneering African-American literary figure but also an entrepreneur in the black women's hair care market fifty years before Madame C. J. Walker's hair care empire made her the country's first woman millionaire.
