outside the box for mans origin and came to the conclusions Jim shows in his book. He does a fantastic job of putting it all together and I love the way he links to his sources so the reader can form his/her own beliefs.0 of 0 people found the following review helpful. From the Back CoverWe are not alone. And we never have been.For years we've been taught that human progress has been a long, slow climb from the primordial ooze to hunter-gatherers to empires. But what if that's only part of the story?Bestselling author and legendary conspiracy researcher Jim Marrs now takes on his biggest subject: the history of humankind. Offering mind-blowing information that will radically alter the way we think about the world and our place in it, Marrs goes beyond the revelations of his classic *Alien Agenda*, interweaving science and authentic archaeological finds with provocative speculation to show how human civilization may have originated with nonhumans who visited earth eons ago . . . and may still be here today.Marrs sifts through the historical, scientific, and cultural record, showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth. From the flying vimanas of the Hindu Vedic literature and the flying shields reported by the Romans to the mysterious airships of the 1800s and the UFOs of today, he argues that someone other than us is still present on this planet. But are these visitors simply observers or do they play a much more active and controlling role? Jim Marrs raises this shocking question and more in the provocative and persuasive *Our Occulted History*.The truth is out there . . .About the AuthorJim Marrs is a celebrated journalist and the author of *Our Occulted History*, *The Trillion-Dollar Conspiracy*, *The Rise of the Fourth Reich*, *Rule by Secrecy*, *Alien Agenda*, and *Crossfire: The Plot That Killed Kennedy*. He lives in Texas.
