Will be using this text my 8th grader for spring semester along with the resources identified below as a "review" of middle school history studies.After much research of products, I selected the text for following four reasons:1) Enhances currently used resources and helps look at history: Needed more information than Alex Woolfe's "A Short History of the World" and connects historical events and trends across the world not dominated by Western viewpoint. Hyperhistory Online (see: http://www.hyperhistory.com/online_n2/History_n2/a.html) and Flow of History (see: <http://www.flowofhistory.com/units/>)2) Found "World History for All of Us" site which is wonderful resource and I like it's approach to developing an understanding of history through themes (See: <http://worldhistoryforusall.sdsu.edu>.)

It is through the WHfAoU site that I found Panorama.2) I wanted a WORLD view of history not dominated by the Western point of view3) Along with "World History for All of Us", it provides a framework to look at global history events and how they tie together. Some specific things I'm enchanted with in Panorama:- the idea of looking at Africa, Europe and Asia as one continent...make so much sense to me.. it's the first chapter- the text has the most wonderful maps throughout which provide a panoramic view of the era being looked at (hence the than Panorama)- the Focus questions (highlighted in blue at the beginning of sections) are excellent in providing a basis from which to look at the events (also, are good test questions :)0 of 0 people found the following review helpful. Should have bought new!By MissyBook came in great condition. No access code! Now I have to spend \$85 on a code! Should have bought brand new!0 of 0 people found the following review helpful. Awesome RentalBy Nessa MeriMy book was in perfect condition! This was a great class and I loved learning from this source!

Just as a panoramic image provides a broad view, Panorama provides a ground-breaking, broad view of the world's history by reaching across regional boundaries and highlighting large-scale, global patterns. Panoramas easily understood chronology, coupled with its innovative, proven digital tools, ensures that learners are always moving forward as they study change and continuity across time, assess knowledge gaps, and mold critical thinking skills. The result is improved course performance through greater understanding of our world's past, its large-scale global trends, and its impact on and relevance to 21st-century students.
