**Maneka Gandhi : Penguin Book of Hindu Names for Boys** before purchasing it in order to gage whether or not it would be worth my time, and all praised Penguin Book of Hindu Names for Boys:

0 of 0 people found the following review helpful. Exhaustive list.. But not really a name bankBy YE SivaDoes the job!2 of 4 people found the following review helpful. Don't waste your money!By rovingeyesBook is full of arcane, old-fashioned, multi-syllabul names that most folks won't ever consider for their kids (especially is living abroad in a western country).4 of 4 people found the following review helpful. Not useful, don't waste your timeBy CosmocolaI would say I found this book useless. It is just a compilation of nouns not names. I think every Sanskrit word that is

noun has been put up in the book. If you are looking for a name for your new born then it is not a good source(better look into some online babynames sites). Because most of the words you find in the book, you will not want to use for name for your child(like Andha meaning blind). The book is good if you are looking for meaning for some name.

Including modern names and those which are popular, this book serves as a practical guide for choosing the perfect name for your son. It is also a precise and invaluable sourcebook for scholars and lay readers alike who would like to know what familiar (and not so familiar) Hindu names actually mean.
