Alia N. Athar : Prophets:Models for Humanity before purchasing it in order to gage whether or not it would be worth my time, and all praised Prophets:Models for Humanity:

1 of 1 people found the following review helpful. Really good bookBy Green_CourtIf you need to learn about islamic prophets and there names in other religions you have to have this book.This book tells you a brief review of every single prophets in Islam.If you want to read some the nice and honest read this book.

Moving beyond the traditional story-like style, the author in this pioneering work elucidates the lives of the prophets in the context of their continuing struggle between good and evil. Based on the Quran and the Sunnah, the lives of thirty prophets unfold for the reader. This book is of immense value as a textbook on the prophets at the secondary level. Vocabulary controlled, there is a review at the end of the life of each prophet. Its reading will inculcate an interest in the common threads of the message of the prophets.
