It gives you an excellent portrayal of he and his life and what a tremendous leader he was and what a perfect way of life the Native peoples of this country had. Makes you realize that we, as white European people, destroyed the perfect way of life that is needed to sustain life on this planet.1 of 1 people found the following review helpful. Wisdom for AllBy Heylady50The wisdom of the Lakota is something we can all learn from. I appreciate the reading by Joseph Marshall III. I listened to this while traveling to and from work which is about a 40 minute drive. He has such a calming effect and a wonderful ability to tell a story so that it comes alive. This in a series in which I will listen over and over again.0 of 0 people found the following review helpful. Great

presentation of Crazy HorseBy mining womanThis is a great recording. If you like Native American Wisdom, this is an excellent presentation of Crazy Horse. Joseph Marshall III is one of my favorite Native American authors.

Mention the name Crazy Horse, and many of us will remember a history lesson about a faceless Indian warrior who defeated General George Custer at the Battle of the Little Big Horn. But beyond this singular event, who was this man? And what teaching did he offer to all peoples of every nation? On Quiet Thunder, Lakota lineage holder Joseph M. Marshall III presents the first audio-learning program based entirely on the rich oral tradition of his people to share a vibrant portrait "painted with the brush of reality rather than the distortion of legend." With him, you will meet a compassionate but purposeful man driven by the empowering vision of a "Thunder Dreamer"- one who "walked the path of giving as opposed to gaining," honor instead of ego, and leadership through leading, not authority. Let the past come alive with Quiet Thunder as Joseph M. Marshall III uncovers the life and teachings of Crazy Horse-warrior, visionary, and beloved leader of the Lakota nation.

About the AuthorHe was born on the Rosebud Reservation in south-central South Dakota. Raised by his maternal grandparents, his first language is Lakota. He is a historian, educator lecturer the author of highly regarded small press books. He has been a technical advisor actor in television movies including Return to Lonesome Dove. A recipient of the Wyoming Humanities Award.From AudioFileJoseph Marshall III tells the story of Crazy Horse, not once, but several times in this performance, weaving the story of the great leader into the larger story of the Lakota people and the crisis they encountered when facing Euro-Americans. The first half of the performance is straightforward narrative; the second half teaches lessons about how to live a meaningful life. These lessons are illustrated with key points from Crazy Horse's life and stories from Lakota mythology. Through it all, Marshall maintains the evocative cadence of a traditional storyteller. He takes his time, underscoring each point, not just with voice but with breath and silence. His powerful delivery is supported by occasional selections of songs performed by the Crazy Horse Singers.
