Feisal Abdul Rauf : Quran for Children before purchasing it in order to gage whether or not it would be worth my time, and all praised Quran for Children:

4 of 4 people found the following review helpful. Great Introduction!By Sara BennettWe will be using this book next year in our World Religions course for our 8th grade homeschool program. It's a tiny bit simplistic for the grade level I'll be using it in, but it does seem to provide a great introduction to the TRUE writing of the Quran, rather than just an interpretation. We we also be using other books that do have a re-hash interpretation style, so this will be a great supplement!1 of 1 people found the following review helpful. Five StarsBy zakee madyunVery helpful1 of 2 people found the following review helpful. This is a good book but inaccurately represented as a "basics" kind of ...By

Learing and Practicing IslamChildren? Perhaps children who are native speakers or already have a solid foundation in Arabic.This is a good book but inaccurately represented as a "basics" kind of text. It is NOT that and, I would say, not the right text for beginning (or even beginner "plus") native speakers of English.

This revised and enlarged textbook for Quranic studies contains Arabic verses, English translation and transliteration. The verses selected by the author help children develop their character and behavior according to the Islamic code of conduct. An excellent course book for Muslim schools. Each section ends with exercises and answers are given at the end of each chapter.
