Annie Wood Besant : Reincarnation before purchasing it in order to gage whether or not it would be worth my time, and all praised Reincarnation:

the style of the old lady HPB (i.e. unreadable); who by the way was a mentor to Besant. Not a bad book for free - read it online, it is short enough, also terse, peppered with jargon the theosophists so love to use. In chapter what reincarnates? Monad etc. Why just not use English words and tell us, is it the Soul or the Spirit that reincarnates? This book will not inform you much. A far better and more comprehensive study on the subject is by the occult master and yogi Atkinson. REINCARNATION AND THE LAW OF KARMA9 of 9 people found the following review helpful. Brilliantly articulated exploration of the elusive mystery of Reincarnation!By GodsparkBesant covers all the bases in this little book on a subject that is timeless and spans all the truth based mystery sects and esoteric religious thought. Especially informative is her section on the objections to reincarnation - quite fascinating all the way around.
