In this book, you will begin to see that when people follow 'right thinking and action', they are able to create a social system that allows them to know their soul essence and how it affects their physical decisions. A more open way of all religions transforming their thinking to an inclusive way of seeing the oneness of spiritual and physical needs to help us see there are diversities in all realms of life. **READ THIS BOOK** to see how the current movement towards materialism and atheism is damaging our political, religious, and social systems, confusing our people and creating fear and a lack of hope for people worldwide. Written as a spiritually motivated and legally appropriate look at modern day politics. A must read in these challenging times!

It seems peoples idea on justice are clashing each other. Although this book is a compilation of the authors recent lectures, it amazed me that each of them has given me the clues to find the answer to my question from various different aspects especially about why religions fight each other and how we can stop them. His view about income disparity issue were also eye opening. By reading through this book, I've got much clearer vision on how the justice in the globalized society should be and, I've found the author is trying to show us that God is never silent throughout this book. It indeed was convincing. I strongly recommend this book.

How can we resolve conflicts in this world? Why is that we continue to live in a world of turmoil, when we all wish to live in a world of peace and harmony? Just in recent years, we've faced issues that jeopardize international peace and security, including the rise of ISIS, Syrian civil war and refugee crisis, break-off of diplomatic relations between Saudi Arabia and Iran, Russia's annexation of Crimea, China's military expansion, and North Korea's nuclear development. In hopes of offering solutions to global crises, thereby bringing peace, security, and happiness to all people, Ryuhō Okawa, Global Visionary who has readers in over 100 countries wrote **The Laws of Justice**. This book shows what global justice is from a comprehensive perspective of the Supreme God. Becoming aware of this view will let us embrace differences in beliefs, recognize other people's divine nature, and love and forgive one another. It will also become the key to solving the issues we face, whether they're religious, political, societal, economic, or academic, and help the world become a better and safer world for all of us living today.
