Eberhard Zangger : The Luwian Civilization: The Missing Link in the Aegean Bronze Age before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Luwian Civilization: The Missing Link in the Aegean Bronze Age:

3 of 3 people found the following review helpful. Intriguing but technical By Rich An intriguing look at Hittite/Achaean/Trojan War time era where a relatively unknown group, the Luwians, lived and fought in Turkey. Intriguing and of interest to people researching the Sea Peoples. This may be a bit technical at times. Somewhat more

technical than his "Flood from Heaven" book.
