Mohsen M Milani : The Making Of Iran's Islamic Revolution: From Monarchy To Islamic Republic, Second Edition before purchasing it in order to gage whether or not it would be worth my time, and all praised The Making Of Iran's Islamic Revolution: From Monarchy To Islamic Republic, Second Edition:

2 of 3 people found the following review helpful. A Valiant EffortBy A CustomerI had Dr Milani two semesters ago

for an International Politics class. I found him to be a rather open minded professor, but in this book he presents a rather one sided argument. Still, for those not familiar with the Islamic Revolution this book may be helpful. I would recommend reading other sources for further information and formulating your own opinions. 6 of 8 people found the following review helpful. Methodical. Analytical. Many Sources Uncited Elsewhere. By Dev Null Dr. Milani's treatment is methodical, deeply analytical and cites many sources which have not been referenced in other books in English. While Keddie's 'Roots of Revolution' reaches similar conclusions wrt 1977-79, and Kamrava's 'Revolution In Iran' stands as a distinct analysis, neither dissects the events of this period and documents it to the extent done in this book. I am yet to find a more informative book. 3 of 9 people found the following review helpful. A MODEST ATTEMPT By A Customer The book was somewhat dry, yet it was informative. Although on the surface the author tried to remain unbiased, it was evident that he was pro-Khomeini. There was no mention of the 1000's of people murdered under his authority, especially that of the Bahai's who lived in Iran. Yet the Shah was portrayed as an oppressive ruler who had no regard for his people. Without knowing the actual history of Iran and that of the revolution, this book would be hard to follow.

In this fully revised and expanded second edition, Dr. Milani offers new insights into the causes and profound consequences of Iran's Islamic Revolution. Drawing on dozens of personal interviews with the officials of the Islamic Republic and on recently released documents, he presents a provocative analysis of the dynamics and characteristics of factional politics in Islamic Iran. Among the new issues covered are the events leading up to the Teheran hostage crisis, Ayatollah Khomeini's life and writings, President Rafsanjani's activities against the Shah, Rafsanjani's recent reforms, Iran's involvement in the Kuwaiti crisis, and the domestic and foreign policy challenges facing Iran in the post-Cold War era. The second edition is specifically revised for use as a text for courses dealing with Iran, the Middle East, and revolutionary movements.

About the Author Mohsen M. Milani is associate professor of politics, Department of Government and International Affairs, University of South Florida in Tampa.
