Lynn Hunt, Thomas R. Martin, Barbara H. Rosenwein, R. Po-chia Hsia, Bonnie G. Smith : The Making of the West: Peoples and Cultures, Volume 2: Since 1560 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Making of the West: Peoples and Cultures, Volume 2: Since 1560:

1 of 1 people found the following review helpful. Enjoyed reading itBy SevenZeroSixEven though this was purchased for school, the book is well written with lots of pictures and information. Even if you were to purchase it for the historical content, you would find that it is informative and an interesting read none the less.1 of 1 people found the following review helpful. History book that takes you on a journeyBy Glenn A. CarletonI read a little each night, and feel she is taking me on a journey that has continuity. Pictures and maps add great value. One of my favorite history books, I have learned a great deal, compliments other history reading I do. I intend to read it again, expect to have a solid framework from a West perspective.1 of 1 people found the following review helpful. Good review bookBy

Power Ball Pythons I bought this to study for the Western Civilization II CLEP test. It was well worth it. It's somewhat compact but covers a lot detail of what I needed to know on the test. Also, not nearly as dry as some other history text books. It included lots of pictures and maps and little side paragraphs to help you get an idea of the how the current event you were reading about related to the other things going on in the world at the time. I learned a lot from this book, and also the previous book covering earlier history in Volume I. One other neat thing is that they have a link to a website where you can study this material and take chapter tests.

This was a textbook for one of my basic history courses
