IISS : The Military Balance 2011 before purchasing it in order to gage whether or not it would be worth my time, and all praised The Military Balance 2011:

0 of 1 people found the following review helpful. Five StarsBy Michimasa Takaivery good!!

The Military Balance is the International Institute for Strategic Studies annual assessment of the military capabilities and defence economics of 170 countries worldwide. It is an useful resource for those involved in security policy making, analysis and research. The Military Balance 2011 examines key global issues, including: the development of Iraq's security forces the debate over NATO's strategic concept and operations in Afghanistan developments in China's People's Liberation Army international comparison of defence expenditure and military manpower. Key Features: Region-by-region analysis: major military issues affecting each region, changes in defence economics, weapons and other military equipment holdings and the trade in weapons and military equipment Comprehensive tables: key data on

major military training activities, UN and non-UN deployments, and information on key equipment holdings and defence expenditure trends over a ten year period Analysis: significant military and economic developments
Wallchart: detailed world map that shows current areas of conflict, with explanatory tables The new edition features the 2011 Chart of Conflict.
