From Harcourt Brace Jovanovich : The Modern World (Classics of Western Thought Series, Volume III)

before purchasing it in order to gage whether or not it would be worth my time, and all praised The Modern World (Classics of Western Thought Series, Volume III):

2 of 2 people found the following review helpful. A Brief Introduction To Western PhilosophersBy Todd O'Rourke"The Modern World: Classics of Western Thought" would be a great supplementary textbook, however, as a standalone book used in class, I don't really care for it. I agree that the material within the book is superb, however, I often had to do outside research in order to understand the importance of each text. Similarly, this textbook only gives very brief descriptions of the philosophers that were selected for this book. Most of the time, the description is only a paragraph or two. This is not enough information for the reader to get a sense of why the author is important for today's society.Overall, I like some of the material within the textbook. It introduces many important historical figures

that have fallen out of memory; nevertheless, in order to get a better sense of the material, the reader should look elsewhere. I give this textbook three out of five stars. 0 of 0 people found the following review helpful. Five Stars By Nancy negron Thank you! 1 of 1 people found the following review helpful. Rich collection of classic writing By Paul I found this volume well worth the effort to read from cover to cover. It's a vivid reminder of what deep thoughts and artistic endeavors have preceded our high-tech world of today.

Originally published under the General Editorship of Thomas H. Greer, the series emanated from the Humanities Department of Michigan State University. The books remain today perhaps the best sources available for the comprehensive study in one volume of every subject area which might be included in the umbrella of humanities. Most major literary forms are represented: essay, poem, short story, play, novel, memoir, epigram, scientific discourse, philosophical treatise, political manifesto, and religious proclamation. All major subject areas are explored: art, music, education, mathematics, biology, psychiatry, religion, philosophy, politics, economics, and physics. The informative apparatus, headnotes, and footnotes are all aimed at enhancing the student-reader's comprehension.
