Thomas Childers : The Nazi Voter: The Social Foundations of Fascism in Germany, 1919-1933 before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Nazi Voter: The Social Foundations of Fascism in Germany, 1919-1933:

2 of 3 people found the following review helpful. The NSDAP vote By Jose Roque A complete examination of the vote

for the NSDAP in Weimar Republic, to be complemented with studies by J. Falter, u.s.1 of 3 people found the following review helpful. Five StarsBy james m hawkinsgreat teacher16 of 18 people found the following review helpful. First Rate HistoryBy Robert M. LevineSuperb analysis of the voting patterns in the Weimar period that led to the installation of Hitler as chancellor. If you want to understand how a democratic electorate can be manipulated into voting against their own best interests, this book is the best source of information, based on historical fact. Much can be learned from this that is applicable to the manipulation of American democracy today by vested interests.

The first study based on a large national sample of both urban and rural districts examines the Nazi constituency -- how it was formed, from which social groups, under what conditions, and with what promises. Using advanced statistical techniques to analyze each national election of the Weimar era, Childers offers a new and challenging interpretation of who voted for Hitler's NSDAP and why. He also provides a systematic examination of Nazi campaign strategy.

"A fine, well-argued, innovative and clearly-written study."Times Higher Education Supplement""A fine, well-argued, innovative and clearly-written study."Times Higher Education Supplement" Takes our understanding of the Weimar electoral landscape onto a new level. . . . A fine, well-argued, innovative and clearly-written study.--Times Higher Education SupplementAbout the AuthorThomas Childers is associate professor of history at the University of Pennsylvania.
