From Brill Academic Pub : The New Testament in Greek IV (New Testament Tools, Studies and Documents) before purchasing it in order to gage whether or not it would be worth my time, and all praised The New Testament in Greek IV (New Testament Tools, Studies and Documents):

This book provides transcriptions and images of some of the oldest parchment manuscripts of the Gospel of John in Greek. It contains also a complete critical apparatus of all the parchment manuscripts of John, including such important manuscripts as Codex Vaticanus and Codex Sinaiticus. The transcriptions and plates are restricted to fragmentary and difficult-to-read copies. These have received the same detailed treatment as was used by the International Greek New Testament Project to make an edition of the papyri of John (Brill: 1995). The International Greek New Testament Project is a European-American project currently collaborating with the Institut für neutestamentliche Textforschung (Münster, Germany) to make a critical edition of the Gospel of John in the *Editio Critica Maior*.

"These two volumes are splendid research tools. The recent volume with accompanying online resources is a pleasure to use. In this rapidly advancing field at their various stages of publication these volumes represented cutting-edge scholarship. Thanks should also be expressed to Brill publishers for supporting the publication of these highly significant volumes." Paul Foster *The Expository Times*, 2008 "Le soin avec lequel cette édition a été réalisée est exemplaire de ce qu'on peut faire de mieux à l'heure actuelle, et la mise en page généreuse des textes et des toutes les transcriptions et renvois chiffres permet une consultation agréable et sans fatigue."
