7 of 8 people found the following review helpful. InsightBy BlauthPG Maxwell Stuart offers a variety of texts

concerning the occult that were heretofore unavailable in an English translation. Texts are grouped into categorial chapters and translated into concise modern English. Includes works by authors such as Martin Luther, Newton and Nicodemus.

This collection of translated documents, many of which have never before appeared in English, presents a survey of the vibrant, complex, stimulating, perilous world of magic, witchcraft, astrology, alchemy, and other related occult themes. It presents them not as disparate elements of folkloric belief and intellectual aberration, but as parts of a coherent, intellectually rigorous and scientifically challenging world-view and integral parts of everyone's intellectual, social and moral life in the early modern period.
