My favorite kids almanac for 2014By CustomerI purchased The Old Farmer's Almanac for Kids (volume 5, 2014) along with 2 other kids almanacs: National Geographic Kids Almanac 2014 and The World Almanac for Kids 2014.This one is my favorite out of the three, followed closely by the National Geographic one. The World Almanac for Kids 2014, mentioned above, is filled with too many pop culture references. It's great if you want your kids to learn some facts about Justin Bieber or find out what celebrity they share

a birthday with. If you want your child to learn some real world information about nature, the universe, various facts about other countries, a few world records, how to tell time with the stars, among many other things, consider getting this almanac. There are some fun activities scattered throughout (a magic trick, some origami, some fun yard games, etc.), that make this almanac much more than just a reading experience. The only reason I rate the National Geographic one as being slightly below this one is because it is nature and animal heavy. Most likely I will always purchase The Old Farmer's Almanac for Kids and the National Geographic one together because between the two there is nothing lacking for overall great and fun information for one's children. 2 of 2 people found the following review helpful. LOVE this almanac - I think I enjoy as much as my kids. By txashes Really almost wish I would have bought 2, one for each child. The whole family enjoys looking at these - and I really like the layout of this one for younger readers. My son loves the original almanac, and this one was a great additional purchase for him. 2 of 2 people found the following review helpful. truly a great book for kids By Karen B. scholastic almanac is good for a bunch of trivia facts but this gives your kids useful knowledge. great articles. practical tips, just like the regular almanac. a little bit of trivia. all very nicely laid out that holds a kids interest.
