From Ingramcontent : The 'Orphic' Gold Tablets and Greek Religion: Further along the Path before purchasing it in order to gauge whether or not it would be worth my time, and all praised The 'Orphic' Gold Tablets and Greek Religion: Further along the Path:

The 'Orphic' gold tablets, tiny scraps of gold foil found in graves throughout the ancient Greek world, are some of the most fascinating and baffling pieces of evidence for ancient Greek religion. This collection brings together a number of previously published and unpublished studies from scholars around the world, making accessible to a wider audience some of the new methodologies being applied to the study of these tablets. The volume also contains an updated edition of the tablet texts, reflecting the most recent discoveries and accompanied by English translations and critical apparatus. This survey of trends in the scholarship, with an up-to-date bibliography, not only provides an introduction to the serious study of the tablets, but also illuminates their place within scholarship on ancient Greek religion.

About the Author Radcliffe G. Edmonds III is an Associate Professor in the Department of Greek, Latin and Classical Studies at Bryn Mawr College. He is the author of *Myths of the Underworld Journey: Plato, Aristophanes and the 'Orphic' Gold Tablets* (Cambridge University Press, 2004).
