**J.K Sheindlin : The People vs Muhammad - Psychological Analysis** before purchasing it in order to gage whether or not it would be worth my time, and all praised The People vs Muhammad - Psychological Analysis:

262 of 281 people found the following review helpful. A MUST read by those who want to understand the Muslim psycheBy V. C.Spelling mistakes aside - the author did a wonderful job in analyzing how the so-called holy book anchors into the psyche of the muslim - typical or otherwise . . . and you will eventually realize why they do not speak out against the atrocities that have become common place today (Today? They have been happening since 1400

years!) (Also read the Barbary Wars - the first overseas war of the US led by Thomas Jefferson) A MUST read - especially by those whose business is global diplomacy - to understand how to deal with that segment of society and to foresee what works and what is guaranteed to fail despite contractual agreements with the lot. I can keep writing . . . read the book instead! 207 of 227 people found the following review helpful. Highly recommended. By Victor Sakala This book should be required reading. Especially to those that are apologetic to the ideology of Islam and keep insisting it is a "peaceful" religion. I say WELL DONE to the author who, in my opinion, is a brave and courageous man. Highly recommended. 195 of 216 people found the following review helpful. Beautifully perfectly details that By READERMANWC Beautifully perfectly details that, proof positive, Muhammad will go down in history, once known fully understood, that he is the most deranged psychotic, sexually frustrated insecure pervert ever to contaminate the earth! Information provided in this book, that is a fact, not an opinion!

Author of the new book series 'Questions that Islam can't answer' - ebook also available exclusively at [www.jksheindlin.com](http://www.jksheindlin.com) "Read with great interest and was very impressed by the level of research committed to the project." - Katie Hopkins Productions, Radio DJ for LBC UK "J.K Sheindlin has done something incredible!" - WND Online News In 'The People vs Muhammad', #1 international bestselling author JK Sheindlin psychologically analyses the founding father of Islam, while putting him on trial for crimes against humanity. Is Islam a "religion of peace"? Was Muhammad the true and final prophet of God? Is the Quran the fulfilment of the Bible, and legitimately continuing the traditions of the Judeo-Christian scriptures? Perhaps one of the most audacious, shocking, unthinkable and highly controversial ideas to ever be conceived, The People vs Muhammad places the founding father of Islam on trial for crimes against humanity, and to challenge his self-proclaimed authority. With the growing threat of home-grown Muslim jihadist terrorist attacks and the ominous cataclysm of a global holy war, there's no doubt Islam has become a burdensome issue which has our own western governments perplexed. This book series intends to investigate the true ideology of Islam, to ascertain with reason and logic the legitimacy of Muhammad's claim and core teachings of his cult. Throughout this series, author J.K Sheindlin carefully analyses the Quran and the Islamic texts legalistically to expose the shocking truth pertaining to Muhammad's advocacy for: Pedophilia, honor killings, sex slavery, prostitution, racism, extortion, murder, psychological indoctrination, intellectual terrorism, censorship, grand larceny, racketeering, domestic violence, gender inequality, and much more! In this powerful series, the first installment Psychological analysis delves deep into Muhammad's past and uncovers disturbing facts which undoubtedly prove to be the origins of his multiple psychopathological disorders. Using entirely the Islamic sources in reference to contemporary psychiatric-medical archives, J.K Sheindlin details Muhammad's extensive catalogue of mental illnesses which include: Psychopathy, Gynophobia, Napoleon Complex, Schizophrenia, Narcissistic Personality Disorder, Messiah-God Complex, Obsessive Compulsive Disorder, Athazagorophobia, Oedipus Complex, Sex-addiction, Pedophilia, and Necrophilia. Furthermore, the author also hypothesizes a convincing argument based on medical science, which debunks Muhammad's first revelation. These external factors being: Volcanic gas inhalation, sensory deprivation, starvation, dehydration, brain damage and Syphilis. Written to provoke a rational response from both Muslim and western readers, the verdict is ultimately decided by the public to determine if Muhammad's claim to prophethood is legitimate.
