Moustafa Zayed : The Prophecies of Muhammad before purchasing it in order to gage whether or not it would be worth my time, and all praised The Prophecies of Muhammad:

5 of 5 people found the following review helpful. A Revealing and Great Book to ReadBy JackieOther than all other books about seers and prophecies, the amount of prophecies in this book that were historically proven made by Prophet Muhammad are short of astounding. This book, in addition, shows the biblical and historical prophecies about the coming of Muhammad himself as the last Prophet, which you can read in today's bible. The Prophecies of Muhammad is an amazing page turner, especially in the last two thirds, where on almost every page there is a new

prophecy that is fulfilled with amazing accuracy. The book is not just stunning in the amount and the accuracy of the prophecies of Muhammad, but also provides a unique, full picture of the overall concept of why we were born, what are we to do in our life, and what is our final outcome- a vision or a picture that I would believe would ring true with any objective Jew, Christian, and obviously any Muslim. To make a long story short, you will not be able to put it down, and I think your entire perception of your existence and purpose in this life will not be the same after you read this book. 4 of 4 people found the following review helpful. TruthBy MatthewGod has sent prophets and messengers to us as a mercy and as guides. Many believed in them when they arrived, but they were also faced with many who rejected their message. Their message is one message, and that message is sent by the One and Only Creator of everything that exists. This belief is a requirement of Islam, and it is incumbent upon those who believe to follow the messenger of their time. For those of you who think, open your heart and mind to the truth. God's final messenger was sent to us over 1400 years ago, and like other prophets and messengers, he was sent with signs and miracles. For those of you who do not know about Muhammad, please take this opportunity to learn something new about the world in which you live from an objective point of view. And for those who are familiar with the last messenger, perhaps you will be reminded of something that will benefit you, and the reminder benefits the believers. 2 of 2 people found the following review helpful. Miracles of Prophet Muhammad which still are impressive and unique. By Muhammad Khan. Book is excellent for non Muslims. Splitting of moon is a unique miracle which was witnessed by a Hindu ruler of his state in South India. He was one late evening walking with his wife and others in his palace on a clear night. When he saw moon splitting and then uniting again. He asked his companions, Did you see this and then asked them to go and find what happened. They said there is messenger of God that has been born in Arabia and this event pertains to him. Now this has been acknowledged by NASA also and the pictures of the moon show the big ridges that arose due to splitting of the moon. Sure Muhammad was messenger of God who prayed to God when the pagan Arabs of his time demanded him to let the moon split if he was a messenger. There are many many similar miracles which are beyond understanding of a normal human mind yet they happened. This confirms Muhammad was messenger and Islam was a God given religion. I recommend that Muslims should buy this book and give it to their non Muslim friends and acquaintances who are interested in God.

The book reveals the fulfilled prophecies the Prophet made with amazing accuracy during his lifetime and after his passing -- even the ones that are still being fulfilled now, or will be fulfilled in the future. The book also reveals the signs of the "Hour," or the era leading to the end of time. Furthermore, it uncovers the Prophet's eye-witnessed prophecies describing Paradise and Hell Fire. The book not only reveals the signs of the Hour or the leading era to the end of time, but also the prophet's eye-witnessed prophecies describing the Hereafter as well. You will not be able to put it down racing to know what will happen in the world next! What this book shows, without doubt, is evidence that would blow the mind of the reader, Muslim or non-Muslim, as to how much proof there is of God's existence, and that Muhammad is His last prophet. The biggest difficulty I faced was trying to limit the book to 350 pages, while the amount of the prophet's fulfilled prophecies, and miracles, physical and scientific was just astounding, said author Moustafa Zayed.

About the Author Imam Moustafa Zayed has a degree in communication systems engineering. He speaks widely in interfaith settings with devotion to bridging peace between communities. Zayed is the author of "Muhammad Said" and the well-known reference book, "The Lies about Muhammad: How You Were Deceived Into Islamophobia, and the just released book "the prophecies of Muhammad". He is also a leading teacher in several mosques in USA's north east. Zayed is well-known internationally as a debater and lecturer against Islamophobia. He is also known for his lectures about the principles of Islamic economics, Islamic Sharia's social justice, applications, and renaissance.
