**Jonathan Phillips : The Second Crusade: Extending the Frontiers of Christendom** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Second Crusade: Extending the Frontiers of Christendom:

13 of 14 people found the following review helpful. excellent book for an overlooked aspect of the crusadesBy Michael BuckThe second crusade is an overlooked and underestimated aspect of crusade history. in this fine and detailed work jonathan phillips, lecturer of crusade history at the university of london, has completely and compellingly filled this gap. drawing on superb first hand sources as well as modern scholarship this is by far the most

complete history of this crusade written in this era. combining all three theatres of war as well as religious and secular backgrounds relating to the launching of this historic conflict, my understanding and appreciation for both the background of and the campaign itself has increased significantly. a must read for crusade historians and the general person interested in these turbulent and far reaching times alike0 of 0 people found the following review helpful. Five StarsBy J PearsonGreat book!0 of 1 people found the following review helpful. Five StarsBy Jimexcellent

The Second Crusade (1145-1149) was an extraordinarily bold attempt to overcome unbelievers on no less than three fronts. Crusader armies set out to defeat Muslims in the Holy Land and in Iberia as well as pagans in northeastern Europe. But, to the shock and dismay of a society raised on the triumphant legacy of the First Crusade, only in Iberia did they achieve any success. This book, the first in 140 years devoted to the Second Crusade, fills a major gap in our understanding of the Crusades and their importance in medieval European history. Historian Jonathan Phillips draws on the latest developments in Crusade studies to cast new light on the origins, planning, and execution of the Second Crusade, some of its more radical intentions, and its unprecedented ambition. With original insights into the legacy of the First Crusade and the roles of Pope Eugenius III and King Conrad III of Germany, Phillips offers the definitive work on this neglected Crusade that, despite its failed objectives, exerted a profound impact across Europe and the eastern Mediterranean.

This is an excellent book, which takes full account of both primary sources and the many debates in the secondary literature. No other book offers a modern synthesis of the subject in the light of recent developments in crusading studies.Professor Malcolm Barber, University of Reading
