**H.P. Blavatsky : The Secret Doctrine** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Secret Doctrine:

0 of 0 people found the following review helpful. An open mind helps with this one By Marc Maurus Madame Blavatsky, charlatan or cherub? No one can say for sure. I can say that her approach has been maligned by those readers unwilling to keep an open mind. What they don't realize is that an open mind does not necessarily mean a mind ready to be changed. As with any book of doctrine, you end up making up your own mind. That's what is needed her. She is hard to swallow, I admit that, but I always admire a fresh perspective. I plan to buy her Isis Unveiled as well,

just to gain a complete perspective. I do not believe, or believe in, Blavatsky, but she does have an interesting approach. Buy this only if you can adopt my approach. Otherwise she will only make you scoff, or angry. 2 of 2 people found the following review helpful. love to read them  
By Lisa HI found two of her books in a rare book shop, love to read them!  
When I saw this bought it too  
0 of 0 people found the following review helpful. Too hard to read and apply in the 21st century!  
By LinkedInSecrets - Author of 4 LinkedIn Books  
Too hard for me to read and make any plans to take action on. Keep in mind this book was written around 200 years ago and who knows what was changed from the original manuscript...

Complete and unabridged, here is the unparalleled landmark of occult philosophy and lost history that reshaped the modern spiritual mindset and continues to fascinate readers today. There is perhaps no greater enigma in modern Western literature than *The Secret Doctrine*. The controversial Russian noblewoman Madame Helena Petrovna Blavatsky told the world that the book restored humanity's lost history and destiny. Its insights, she said, had been gleaned from long-secret books of wisdom and her tutelage under mahatmas, or great souls: adepts from the East who exposed the seeker to their esoteric teaching. To read *The Secret Doctrine* is to enter a mysterious world of ancient cosmology and spiritual-scientific insights, which tell of humanity's unthinkably ancient past and its burgeoning evolution into a new, more refined existence. For the first time, Blavatsky's encyclopedia arcana is available in a reset and redesigned single-volume edition, complete and unabridged. Its truths and challenges are available to the intrepid reader, who may find yet-unknown insights within its pages.

"The Secret Doctrine assumes the dignity of a scripture, for in its pages eternal mysteries are clothed in ancient and modern terms, and to those who have eyes to see, the ageless wisdom is revealed." --Manly P. Hall, author of *The Secret Teachings of All Ages*  
About the Author  
Like a comet across the horizon of complacent Western civilization, MADAME HELENA PETROVNA BLAVATSKY (1831-1891) appeared on the American scene in the early 1870s and almost single-handedly revived interest in the occult and esoteric, and also introduced many Westerners to the religious ideas of the East, particularly Hinduism and Buddhism. The world-traveled Russian noblewoman founded the Theosophical Society in New York City in 1875 to study the esoteric ideas behind the world's religions. She relocated to India in 1878, where she and her collaborator, Colonel Henry Steel Olcott, a retired Civil War officer, helped inaugurate India's independence movement. Blavatsky moved to London in 1885, where she began writing her magnum opus, *The Secret Doctrine*--a vast, two-volume compendium of occult philosophy and a cosmological vision of humanity's lost history and secret destiny. Published in 1888, *The Secret Doctrine* became a formative influence on avant-garde artists and intellectuals, and propelled the dawning occult revival and alternative spiritual culture. Blavatsky died two years after its publication.
