achieve astral projectionBy CustomerWilliam Buhlman is carrying on in the tradition of Robert Monroe as Mr. Monroe himself would wish. William writes clearly, and relies on simple and easy to understand exercises to help one achieve astral projection. He also shows that you can grow beyond your predetermined confines and become something much more than a single soul. If you have read Robert Monroe, you will definitely enjoy this book.1 of 1 people found the following review helpful. Highly recommended.By Matthew MyersI would recommend this book for anyone, but especially for anyone who feels like they are just beginning to "wake up". This book made me realize that a lot of things that happened in my life as a kid were normal "spiritual" happenings. This book will give you a bit of a better understanding of yourself. It is set up in a way that makes it easy to read and easy to follow. The book is also very easy to understand and doesn't use any kind of outrageous terminology and words that are uncommon to the English language. Reading this book was a pivotal point in what I feel was my "awakening". If you are new to the "spiritual" world, this book is definitely for you.
