John Ashdown-Hill : The Secret Queen: Eleanor Talbot, the Woman Who Put Richard III on the Throne before purchasing it in order to gage whether or not it would be worth my time, and all praised The Secret Queen: Eleanor Talbot, the Woman Who Put Richard III on the Throne:

0 of 0 people found the following review helpful. Henry the kingsBy John MazzacaneVery developed with new info.

Fasinating0 of 0 people found the following review helpful. Should be read with English HistoryBy Patricia M. TejadaVery interesting review of history. Once you read this, other books on the subject of English Royal History become easier to understand.0 of 0 people found the following review helpful. Five StarsBy Patricia C.Extremely thorough and very convincing plausibilities.

When Edward IV died in 1483, the Yorkist succession was called into question by doubts about the legitimacy of his son, Edward (one of the "Princes in the Tower"). The crown passed to Edward's undoubtedly legitimate younger brother, Richard, Duke of Gloucester. But those who believed in the legitimacy of Edward IV's children viewed Richard III's accession with suspicion. From the day when Edward IV married Eleanor, or pretended to do so, the House of York confronted an uncertain future. This book argues that Eleanor Talbot was married to Edward IV, therefore Edward's subsequent marriage to Elizabeth Woodville was bigamous, making her children illegitimate. It also offers a solution to one of history's great mysteries, by putting forward groundbreaking new evidence that calls into question the identity of the "bones in the urn" in Westminster Abbey, believed for centuries to be the remains of the "Princes in the Tower."

Fascinating and thorough study. Publishers Weekly on Royal Marriage Secrets
