John Loftus, Mark Aarons : The Secret War Against the Jews: How Western Espionage Betrayed The Jewish People before purchasing it in order to gage whether or not it would be worth my time, and all praised The Secret War Against the Jews: How Western Espionage Betrayed The Jewish People:

7 of 8 people found the following review helpful. IT'LL BLOW YOUR MIND.By CRENot a page goes by that doesn't elicit an, "I can't believe it. It can't be." Yet it's all true, thoroughly documented - this story of illicit machinations by

individuals of democratic countries to fund the Third Reich, to aid the Nazis in wartime, and to protect the Nazi filth after the war. Nor is that the only story. There is that of the US Justice Department and Great Britain's government, elected and royal, all thoroughly run by and riddled as they were (are?) with Nazi sympathizers who, for the sake of profit, betrayed their countries. Then later, when the Nazi murderers arrived illegally in the US, they were given jobs - working within the US government. Of course, this book doesn't forget the Vatican, which funded Hitler and helped support Hitler's Germany. The Vatican laundered money for the German war effort, and, at the close of the war, provided a safe re-routing of Nazis criminals and their gold. The Vatican protected the murderers, sent them all over the world to places where they'd live peaceful, uninterrupted lives, then sent them the gold the Nazis had stolen from the Jews and others - jewels and gold teeth fillings. Quite a story. John Loftus himself, in incredible irony, worked for the Justice department prosecuting Nazi war criminals. He was given access to the files in acres of underground vaults housing the most classified of information - and he hit pay dirt. What he found enabled him to expose the heinous crimes of those in trusted US government seats, in the Royal Family, in the Vatican.... It just doesn't stop. The reader can barely catch his breath throughout. It's a masterpiece of puzzle work. And in case you think that it's a lot of hooey, check this out: Loftus' later book, *America's Nazi Secret*, contains all the censored information that finally became public, and which confirms and doubly damns the crimes recorded in *The Secret War Against the Jews*... - i.e., those of the US, Great Britain and Russia. But don't skip this book for the later one. *The Secret War Against the Jews* gives a panoramic, world view of human treachery perpetrated out of a love of money and an illogical, almost mystical hatred for Jews. 1 of 1 people found the following review helpful. Informative By Angelica Very informative. The part that I read was detailed and appeared well researched. Also interesting and reads like a story. Not boring. 2 of 2 people found the following review helpful. Haven't finished reading this but am on page 188 out ... By Arlene Haven't finished reading this but am on page 188 out of 514 and it has answered many of the questions I've had on why certain decisions were made in the past and now into the present - not for the faint hearted but worth ploughing through

A hugely controversial work that exposes a series of scandals from Oliver North to the British royal family, *The Secret War Against the Jews* reveals as much about political corruption inside Western intelligence as it does about Israel. Using thousands of previously top-secret documents and interviews with hundreds of current and former spies, Loftus and Aarons, both veteran investigators, Nazi-hunters, and authors, present a compelling narrative. The authors demonstrate that numerous Western countries, especially the United States and Great Britain, have conducted repeated and willful spying missions on Palestine and later Israel over many decades. While on the surface these two countries and others profess to be ardent allies of Israel, they work, in fact, through their intelligence services to betray Israel's secrets to the Arabs. Their motive: oil and multinational profits, which must be attained at any price through international covert policies. The pageant of characters appearing in this narrative is vast and shocking. This is not only a compelling work of history, but also a volume whose grave allegations will be debated for years to come.

From Publishers Weekly According to one of the authors' anonymous sources, former CIA director Allen Dulles was "one of the worst traitors in American history" because of his involvement in the linkage among Nazi corporations, U.S. oil interests and Saudi Arabia in the 1930s. The allegations are synthesized from interviews with some 500 former intelligence officers of various nationalities. The major powers, the authors argue, have repeatedly taken covert action designed to bring about the destruction of Israel, as much out of greed for oil as anti-Semitism. Among the charges made in these pages: Allied leaders conspired to block the creation of the State of Israel in 1948 for fear its presence would threaten the flow of Arab oil to the West. Great Britain and the United States, while pretending to support Israel during the Six-Day War, passed Israeli military secrets to their Arab foes. The Reagan administration tried to set up Israel as the principal scapegoat for the Iran-Contra scandal. Over the past 50 years, virtually every Jew in the world has been the subject of electronic surveillance by the British with the assistance of American intelligence. Loftus and Aarons wrote *The Unholy Trinity*. Copyright 1994 Reed Business Information, Inc. From Library Journal The authors (*Unholy Trinity*, St. Martin's, 1992) argue that the United States and other Western democracies have had a covert agenda to subvert Jewish nationalistic claims throughout the century. That the U.S. State Department has always been anti-Israel has been well documented before, but the authors further their claims by relying on formerly classified American documents and the recollections of many former operatives, or old spies, as they are called here. This book will probably appeal to fans of espionage who like their tales painted in broad strokes. The very chapter titles give an indication of the strident tone of the book, e.g., "Age of Bigotry," "Age of Stupidity," and "Age of Greed." Although there are some interesting nuggets in this book, it is an optional purchase. A much better study on some of the issues raised here is Peter Grose's *Israel in the Mind of America* (1983). Paul Kaplan, Lake Villa Dist. Lib., Ill. Copyright 1994 Reed Business Information, Inc. From Booklist The thesis of this absorbing book is that the secret bias of Western governments against the Jews was and is the single largest obstacle to peace in the Middle East. The book presents the point of view of non-Jews, most of whom are retired intelligence officers--the so-called old spies who plotted against Israel and the Zionist movement. Most of the hundreds of intelligence officers the authors interviewed were trained to regard Jews, and hence Israel, as hostile targets. The book is divided into three

parts: the first covers the period from the end of World War I to just after the end of World War II, the second covers the postwar era up through the Nixon administration, and the third begins with the CIA's alleged sabotage of Carter's presidency and continues through the Reagan and Bush administrations, during which "sources allege that the Reagan administration set up Israel as the scapegoat for the Iran-Contra scandal, while the White House bought guns from a PLO terrorist and wiretapped American Jews." Loftus and Aarons have documented their sources' allegations with facts from such diverse sources as Oliver North's diary, hundreds of volumes of congressional investigations, and thousands of declassified files. The book is bound to be controversial; the list of "betrayers" is long and includes popes and presidents, kings and queens, statesmen, businessmen, military intelligence, and world movers and shakers of every ilk.
