Eve Haas : The Secrets of the Notebook: A Woman's Quest to Uncover Her Royal Family Secret before purchasing it in order to gage whether or not it would be worth my time, and all praised The Secrets of the Notebook: A Woman's Quest to Uncover Her Royal Family Secret:

0 of 0 people found the following review helpful. The Secrets of the NotebookBy NancyWhat an awesome truth of

finding answers to family secrets...well written, and worth the read. Let us always remember the truth of history.0 of 0 people found the following review helpful. Beautiful storyBy Jennifer CagnassolaI just started reading stories about The Holocaust. My Dad's side of the family is Jewish. We never talked about it much. My Grandmother doesn't talk about it. It was very painful to read at first, and now, I can't seem to find enough. I try find different perspectives from all that were effected. This story, reflects a different aspect once again.0 of 0 people found the following review helpful. Great book about a family's journey to discover their royal ...By CustomerGreat book about a family's journey to discover their royal heritage. If you're into genealogy, you might really enjoy this book.

A New York Times bestseller, the true story of a girl who learns she's descended from a princess, told with the suspense of a Cold War thriller. The beautiful owner of this book is dearer to me than my life August your protector. This one sentence was the key to a mystery involving some of the greatest and most infamous figures in European history, from Frederick the Great to Napoleon and Hitler and solved by the author of this book. Eve Haas is the daughter of a German Jewish family that took refuge in London after Hitler came to power. Following a terrifying air raid in the blitz, her father revealed the family secret, that her great-great grandmother Emilie was married to a Prussian prince. He then showed her the leather-bound notebook inscribed to Emilie by the prince. Later in life, when Eve was married and inherited the diary, she became obsessed with proving this birthright. The Secrets of the Notebook tells how she follows the clues, from experts on European royalty in London to archives in West Germany and then, under threat of being arrested as a spy by the Communist regime, to an archive in East Germany that had never before opened its doors to the West. What she unearths is a love story set against the upheaval of the Napoleonic wars and the anti-Semitism of the Prussian court, and a ruse that both protected Emilie's daughter and probably condemned her granddaughter Eve's beloved grandmother, Anna, to death in the Nazi camps. A New York Times and international bestseller, The Secrets of the Notebook is now being made into a major motion picture. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

From Booklist Not everyone tracing family roots discovers a connection to one of the wealthiest and most powerful royal families in history. Haas was born in Breslau, Germany, in 1924. At age 10, she fled Berlin with her assimilated Jewish family to escape the Nazis, but her beloved fragile grandmother, Anna, would not leave, and she later perished in transport to the Nazi concentration camp Theresienstadt. But was Anna really Jewish? From London, Haas is obsessed with tracing her family's history right back to the Napoleonic Wars, poring for years with her husband and sons through files, documents, letters, libraries, archives, and graveyards across Europe; she was sometimes in danger of being arrested as a spy during the Cold War. Descriptions of the slogging do get, well, boring at times, but readers exploring their ancestry will recognize the authenticity of the dense detail and many dead ends. The astonishing discoveries lead to more questions, and the climax makes you go back to the beginning. What else is missing from the history books? --Hazel Rochman "A roller-coaster ride full of twists and turns, as Eve battle through the dungeons of history to discover her amazing family secrets." Cherie Blair, founder of the Cherie Blair Foundation for Women and wife of former prime minister Tony Blair "A deadly family secret is uncovered by one courageous woman in this true-life Cold War thriller. A compelling, inspiring read, beautifully and honestly written." John Rutter, CBE, internationally renowned composer and conductor "Fascinating." BBC News Magazine The astonishing discoveries lead to more questions; and the climax makes you go back to the beginning. What else is missing from the history books? Booklist Eve Haas put herself in great danger to unravel the mystery. Sunday Express An eye-opening, riveting tale full of suspense, drama, and anguish. Family History Monthly "The author's enthusiasm for probing the secrets of Augustus' notebook is evident throughout the narrative . . . The twists and turns Haas discovered in her family's past mirrored her actual journey. . . . and took her to places with often painful associations." Kirkus s "Eve Haas skillfully weaves several stories into this memoir. . . . [The Secrets of the Notebook] will have broad appeal, and moreover, make an important contribution to both the history of Europe since Napoleon and of World War II Germany and its citizens."
