**Murry Hope : The Sirius Connection: Unlocking the Secrets of Ancient Egypt** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Sirius Connection: Unlocking the Secrets of Ancient Egypt:

4 of 8 people found the following review helpful. ....hidden factsBy Tomas JaklThis book is not so good if you are awaiting some breaking information. It's designed to be like scholar publication. Structure of the book is clear and linear.A lot of stuff is very intersting on second read. There are several notes, connections between the gods, their deities, myths, stories and so on. So if you just take it and read it. You might find it "very bad", BUT if you are

interested at 2012, you may find lot of relations between the Popol Vuh stories. Also some "deities" and "naming" structure of "Gods" and their relationship with Egypt/"ancient gods" and Egypt's myths is really good. It will fill some empty spaces at your big puzzle. So i suggest to take this book only if you are really looking for some specific information. Whole book as it is and alone is not so ok to buy as starting book for study the Egypt and 2012 and other myths. 6 of 15 people found the following review helpful. **ARRRRGH!!!** How does this junk get published??  
By A Customer  
There's only one word for this book: bad. Crystal cat people from another planet doesn't make for good science fiction, much less a serious religious study. Avoid this book at all costs and go for something **REALLY** good instead like Erik Hornung or something!  
3 of 17 people found the following review helpful. Great imagination on extraterrestrial mambo-jambo  
By C. Baytan  
This book isn't for scholarly minded, it's for extraterrestrial mambo-jambo seekers. Since I am not the one please excuse my language. If you look for obscure, scientifically ungrounded, based on supposedly ancient superstitious ideas, this book is just for you. What else I can say?

Offers a powerful message: by embracing this ancient wisdom the reader can again knowledge, enlightenment, and help bring about a peaceful future for our planet.
