Irwin Unger : These United States: The Questions of Our Past, Concise Edition, Combined (chapters 1-31) (3rd Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised These United States: The Questions of Our Past, Concise Edition, Combined (chapters 1-31) (3rd Edition):

0 of 0 people found the following review helpful. i mean hes good at it By brettlboom89 shockingly this is a text book but the way Irwin unger writes it is interesting. i read it after reading the brown book with indians on it in college. i

just wanted to read American history by this guy. i mean hes good at it. kind of didn't like the last part when he called barrack Obama the darkness lurking over America or something. i mean he could have been more like racially sensitive like blacks have dignity and want to be in politics some how you know i would read something else by this guy if i seen it. 1 of 1 people found the following review helpful. One Star By Kelly W. Horrible text. Very difficult to focus on. Poorly written 1 of 1 people found the following review helpful. Egad, Nightmare Fodder By The Lizard King Oh boy. Another book I was coerced into getting for classes, but I regret this one much more than the others. Though the book could use a better cover, it's really in need of an emergency editing. I found myself underlining horrendously incorrect sentences and misspellings while I trudged through the prose. I found it impossible to accept this book as fact with such simple errors littering the text. I really wonder if I somehow managed to get a first draft of the book with regular binding. I read the book for as long as I could stand. Maybe someday I'll flip through and see what I missed.

Using a thematic approach, this concise survey explores the many and varied threads of American history-social, intellectual, cultural, political, diplomatic, economic, and military-from the arrival of the first native American inhabitants thousand of years ago through the crisis following the terrorist attacks on New York and Washington on September 11, 2001. Irwin Unger, a Pulitzer Prize winning author, wrote this book after discovering from his own experiences teaching American History at the University of California at Davis and at NYU, that a thematic approach was much more interesting to students than a purely descriptive one.

From the Publisher A survey of US History from Pre-Columbian times to the present. Takes a "questioning approach", which focuses student attention to large historiographical questions in each chapter. New edition adds material on the Pre-Columbian period and expands colonial coverage; expands coverage of Indian peoples, ecology and environment, economic history. Volume II re-interprets cold war and final chapter focuses on end of cold war and diversity. From the Back Cover Written by a Pulitzer Prize winning author, this concise survey explores the many and varied threads of American history social, intellectual, cultural, political, diplomatic, economic, and military from the arrival of the first native American inhabitants thousands of years ago to the crisis following the terrorist attacks on New York and Washington on September 11, 2001. Inclusive of all the diverse groups that are and have been part of the American fabric, it shows how the story of America is a human story revealing the imperfections, as well as the triumphs of human endeavor and the human spirit. Using a unique inquiry approach, each chapter is built around a specific question or theme designed to challenge students to consider the complexity of America's past.
